- elevation number sheet number
- structural gridlines

**GENERAL NOTES:**

1. Interior dimensions are to the face of stud unless otherwise noted.
2. Exterior dimensions are to the face of sheathing/face to concrete foundation unless otherwise noted.
3. Insulation shown in sections does not necessarily represent the full extent of the area to be insulated. Where a wall, floor, or roof is shown with insulation it is intended that the entire section of the wall, floor or roof is to be insulated. This is typical for all details.
4. PT denotes pressure-treated; SAM denotes self-adhering membrane; CS denotes combed spruce.
5. Preservative treatment of the PT strapping blocking at plywood sheathing is to be CCA.
6. Fully insulate all rough opening void spaces.
